## TECPETROL SOCIEDAD ANÓNIMA

### SUMMARY OF INFORMATION

In accordance with the regulations issued by the National Securities Commission for Argentina (Comisión Nacional de Valores, CNV), the Board of Directors of the Company has approved this Summary of Information for the six-month period which commenced on January 1, 2022 and ended on June 30, 2022.

#### **1. Activity of the Company**

The operations of Tecpetrol mainly consist in the exploration and exploitation of oil and gas in Argentina.

Operating profits or losses of the Company are affected by production levels; sales prices; market demand for oil, gas and derivative products; fluctuations in operating costs; the national economic and financial setting and government regulations.

By the end of February 2022, when people around the world were ready to leave behind the COVID-19 pandemic, the Russian invasion of Ukraine caused more uncertainty in the markets, particularly affecting international prices of hydrocarbon and raising inflation. Under such adverse circumstances, the Company shows limited growth opportunities given the Argentinian macroeconomic setting and the fragility of external finances.

The management of the Company closely monitors the evolution of the abovementioned situations in order to adopt measures according to the complexity of the events, aiming at safeguarding the integrity of the staff, keeping operations running and preserving the corporate financial health of the Company.

This Summary of information should be construed in light of these circumstances.

The Interim Condensed Financial Statements are prepared based on items recorded in the functional currency (USD) and are translated into ARS for presentation purposes. Therefore, the following explanations are based upon variations in the functional currency and do not take into account the effect of currency translation into the presentation currency.

#### Analysis of the second quarter of 2022

Net sales totaled \$41,398.6 million, representing an increase in relation to the same period of the previous year. Such increase was caused by an increase in the volumes of gas and crude oil delivered and an increase in average crude sales prices, all of which was partially offset by a drop in gas prices, since as from the current period, all gas volumes delivered fall only under Plan Gas 4 and no longer under Resolution No. 46-E/2017 because its validity term ended on December 31, 2021.

Gas production totaled 1,691 million m<sup>3</sup>, representing an increase of 43% in relation to the amounts sold in the same period of 2021. In the second quarter of 2022, gas exports totaled 104.1 million m<sup>3</sup>, whereas in the second quarter of 2021, all gas production was sold to the domestic market.

Crude oil production reached 170 thousand m<sup>3</sup> (34% from escalante crude oil and 66% from medanito crude oil), representing a 26% increase with respect to the production recorded in the second quarter of 2021. In the second quarter of 2022, crude oil exports totaled 79 thousand m<sup>3</sup>, (part of which was delivered after the closing date), whereas in the second quarter of 2021, crude oil exports totaled 64.6 thousand m<sup>3</sup>.

Operating costs totaled \$25,277.2 million, representing an increase of 67% in relation to the amount recorded in the second quarter of 2021. Said variation is mainly explained by an increase in costs associated with higher production levels (mostly depreciation of property, plant and equipment, and royalty expenses), an increase in maintenance operations and wells service activities, and an increase in labor costs.

The Company recorded selling and administrative expenses for \$4,505.9 million, compared to \$1,567.7 million recorded in the second quarter of 2021. Such variation is primarily explained by an allowance for doubtful accounts recovery in the previous period and an increase in storage and transport expenses during the current period due to higher production levels and increasing labor costs and taxes.

Net financial profits (losses) resulted in a loss of \$4,343.2 million, compared to profits for \$172.7 million recorded in the second quarter of 2021. Such fluctuation is primarily explained by an increase in net losses generated by exchange differences on balances in ARS and by profits and losses from the purchase, sale and holding of other investments, all of which was partially offset by a decrease in interest cost from fewer borrowings and fewer losses from derivative financial instruments.

Income tax profit (loss) triggered profits for \$448.6 million, compared to losses for \$4,345.6 million recorded during the same period of 2021. Such variation is mainly explained by fluctuations in sales, costs and other expenses already mentioned, the modification of the income tax rate as from the second quarter of 2021, and the difference between the inflation rate used to calculate the tax inflation adjustment and the devaluation of the Argentine peso.

Profits for the period recorded a profit of \$7,286.8 million, while in the same period of 2021, the Company had profits for \$5,126.1 million.

#### Analysis of the six-month period ended on June 30, 2022

Net sales for the six-month period ended on June 30, 2022 totaled \$69,071.4 million, representing an increase in relation to the same period of 2021. Such increase was primarily caused by an increase in the volumes of gas and crude oil delivered and an increase in average crude sales prices, all of which was partially offset by a drop in gas prices, since as from the current period, all gas volumes delivered fall only under Plan Gas 4 and no longer under Resolution No. 46-E/2017 because its validity term ended on December 31, 2021.

During the first six months of 2022, gas production totaled 3,001 million m<sup>3</sup>, representing an increase of 34% in relation to that of the same period of 2021, which was 2,237 million m<sup>3</sup>. In the six-month period ended on June 30, 2022, gas exports totaled 143.4 million m<sup>3</sup>, whereas in the six-month period ended on June 30, 2021, exports totaled 3.7 million m<sup>3</sup>.

Volumes of crude oil production reached 333 thousand m<sup>3</sup> (35% from escalante crude oil and 65% from medianito crude oil), representing a 26% increase with respect to the production recorded during the same period of the previous year. In the six-month period ended on June 30, 2022, crude oil exports totaled 220.6 thousand m<sup>3</sup> (part of which was delivered after the closing date), whereas in the six-month period ended on June 30, 2021, crude oil exports totaled 148.3 thousand m<sup>3</sup>.

In the six-month period ended on June 30, 2022, operating costs totaled \$45,730.2 million, representing an increase of 72% in relation to the amount recorded in the six-month period ended on June 30, 2021 (\$26,623.7 million). Said variation is mainly explained by an increase in costs associated with higher production levels (mostly depreciation of property, plant and equipment, and royalty expenses), an increase in maintenance operations and wells service activities, an increase in labor costs and the impairment of some slow-moving inventory.

Selling and administrative expenses during the first six months of 2022 amounted to \$7,256.4 million, in comparison with the amount recorded in the same period of 2021, which was \$549.1 million. Such variation is primarily explained by an allowance for doubtful accounts recovery in the previous period and an increase in storage and transport expenses during the current period due to higher production levels and increasing labor costs and taxes.

Net financial loss showed a loss of \$11,491.6 million in the six-month period ended on June 30, 2022, compared to losses for \$6,343.2 million recorded during the six-month period ended on June 30, 2021. Such fluctuation is primarily explained by an increase in net losses generated by exchange differences on balances in ARS and by losses from the purchase, sale and holding of other investments, all of which was partially offset by an increase in interest income from short-term deposits and a decrease in interest cost from fewer borrowings.

Income tax profit (loss) triggered profits for \$5,861.4 million, compared to a loss of \$4,978.8 million recorded in the same period of 2021. Such variation is explained by fluctuations in sales, costs and other expenses already mentioned, the difference between the inflation rate used to calculate the tax inflation adjustment and the devaluation of the Argentine peso, and the modification of the income tax rate.

Profits for the six-month period ended on June 30, 2022 yielded profits for \$10,087.9 million, while in the six-month period ended on June 30, 2021, the Company had profits for \$9,238.5 million.

#### Liquidity and cash flows

Net cash from operating activities in the first six months of 2022 totaled \$25,829 million.

At June 30, 2022, the Company's borrowings totaled \$96,695.5 million and equity totaled \$135,568.3 million.

By means of Communication "A" 7106 dated September 15, 2020, the BCRA introduced restrictions to access the exchange market. One of such measures applicable to entities with offshore financial debt with a non-related counterparty and with debt securities issued in Argentina and denominated in foreign currency, maturing between October 15, 2020 and March 31, 2021 is the obligation to submit a refinancing plan under certain parameters. Additionally, on February 25, 2021, December 9, 2021, and March 3, 2022, through Communications "A" 7230, "A" 7416 and "A" 7466, the BCRA extended the obligation to submit a refinancing plan for principal amounts maturing from April 1, 2021 to December 31, 2021, from January 1, 2022 to June 30, 2022, and from July 1, 2022 to December 31, 2022, respectively, pursuant to Communication "A" 7106. At June 30, 2022, the Company has refinanced its debt with J.P. Morgan Chase Bank, Citibank and others, according to the Communications mentioned above, and must submit a refinancing plan for Class 1 negotiable obligations.

Additionally, on July 21, 2022, the BCRA issued Communication "A" 7552 including the holding of CEDEARS (that is, securities that can be traded on the Buenos Aires Stock Exchange representing shares of companies listed on international markets) within the quota of USD 100,000 of liquid foreign assets which determine access to the Argentine foreign exchange market (Mercado Único y Libre de Cambios, MULC) and setting a deadline (August 19, 2022) to comply with it. At June 30, 2022, the Company held CEDEARS for \$8,233 million. At the date of issuance of this Summary of Information, such situation was handled.

Investments in Property, plant and equipment during the six-month period ended on June 30, 2022 reached \$37,667.2 million (mainly from the development of Fortín de Piedra area).

## **7. Prospects**

The Company has knowledge and skills which give it a competitive advantage to position itself as a leader in the regional development of unconventional resources in long-term projects which are significant for the country's economy, since they have an impact upon job creation, the development of value chains, tax saving, import replacement, the improvement of the trade balance and the reduction in gas prices for consumers and industries.

In Neuquina basin, Tecpetrol is taking part in Plan Gas 4, which is expected to keep the levels of drilling and completion activities in order to reach a production *plateau* of 18 million m<sup>3</sup>/d.

## **8. Subsequent events**

In July 2022, Citibank N.A. agreed to an overdraft facility of \$3,200 million maturing on October 13, 2022 and bearing interest at a 50.35% rate.

No events, situations or circumstances have taken place as from June 30, 2022 and until the date of issuance of these Interim Condensed Financial Statements, other than the ones mentioned herein, which affect or might significantly affect the economic and financial position of the Company or are otherwise worth mentioning.

## Interim Condensed Financial Statements at June 30, 2022

### Notes to Interim Condensed Financial Statements at June 30, 2022

(Amounts stated in thousands of pesos, unless otherwise specified)

#### 1. General information

Tecpetrol S.A. (hereinafter referred to as the “Company”) was incorporated on June 5, 1981, and its main activity consists in the exploration and exploitation of oil and gas in Argentina. Its legal domicile is Pasaje Della Paolera 299/297, 16th floor, city of Buenos Aires, Argentina.

The Company has an important presence in Vaca Muerta area, through (i) unconventional exploitation concessions in the areas of Fortín de Piedra and Punta Senillosa, which were granted in July 2016 for a period of 35 years and over which the Company holds all rights and obligations; (ii) joint operations over unconventional exploitation concessions in the areas of Los Toldos I Norte, Los Toldos II Este and Los Toldos I Sur, and (iii) the exploration permission over Loma Ancha area.

In addition, Tecpetrol S.A. operates in conventional hydrocarbon areas in Neuquina, Noroeste - Golfo San Jorge and other basins through joint operations (see Note 34). It also holds all exploitation rights over the area Los Bastos (province of Neuquén) and has an exploratory (and potential exploitation) permission over the area Gran Bajo Oriental located in the province of Santa Cruz.

The Interim Condensed Financial Statements were approved for issuance by the members of the Board of Directors on August 9, 2022.

#### *Macroeconomic setting*

By the end of February 2022, when people around the world were ready to leave behind the COVID-19 pandemic, the Russian invasion of Ukraine caused more uncertainty in the markets, particularly affecting international prices of hydrocarbon and raising inflation. Under such adverse circumstances, the Company shows limited growth opportunities given the Argentinian macroeconomic setting and the fragility of external finances.

Besides, the restrictions imposed by the Central Bank of Argentina (Banco Central de la República Argentina, BCRA) in 2020 remain in force. Such limitations intend to restrict access to the exchange market for the purposes of restraining the demand for foreign currency; therefore, prior approval from the BCRA is required in order to conduct specific transactions and refinance specific debts. Measures applicable to the Company mainly relate to the payment of principal from financial borrowings abroad with a creditor that is not a counterparty related to the debtor and the payment of debt securities issued in Argentina and denominated in foreign currency (see Note 23). Regarding the exchange regime for commercial transactions, besides the obligation to convert foreign currency proceeds from the export of goods and services into local currency, more restrictions were imposed to access the foreign exchange market for payment of the imported goods which are necessary for the ordinary development of the Company.

Additionally, on July 21, 2022, the BCRA issued Communication “A” 7552 including the holding of CEDEARS (that is, securities that can be traded on the Buenos Aires Stock Exchange representing shares of companies listed on international markets) within the quota of USD 100,000 of liquid foreign assets which determine access to the Argentine foreign exchange market (Mercado Único y Libre de Cambios, MULC) and setting a deadline (August 19, 2022) to comply with it. At June 30, 2022, the Company held CEDEARS for \$8,233 million (see Note 20.a). At the date of issuance of these Interim Condensed Financial Statements, such situation was handled.

## **Interim Condensed Financial Statements at June 30, 2022**

### **Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

#### **1. General information (cont'd)**

##### *The macroeconomic setting (cont'd)*

These exchange restrictions, and the ones that might be implemented in the future, could affect the Company's access to the MULC, and therefore, the acquisition of foreign currency to honor its financial and commercial obligations. Assets and liabilities in foreign currency at June 30, 2022, have been valued based on MULC current quotations.

The management of the Company closely monitors the evolution of the abovementioned situations in order to adopt measures according to the complexity of the events, aiming at safeguarding the integrity of the staff, keeping operations running and preserving the corporate financial health of the Company.

These Interim Condensed Financial Statements of the Company should be construed in light of such circumstances.

##### *Seasonality*

Neither the demand for crude oil significantly varies throughout the year nor its seasonal prices. Gas demand for residential use and electricity generation is seasonal; thus, there are substantial fluctuations in winter and summer seasons. Gas demand intended for industrial use and compressed natural gas (CNG) stations does not significantly vary throughout the year. Gas prices vary upon demand.

Consequently, the operations of Tecpetrol S.A. might be subject to seasonal fluctuations in relation to both volume and sales prices.

#### **2. Basis for preparation**

These Interim Condensed Financial Statements of the Company were prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), under a historical cost convention, modified by the revaluation of financial assets and liabilities at fair value.

The National Securities Commission for Argentina (Comisión Nacional de Valores, CNV), by means of General Resolution No. 622/13, has established the application of Technical Resolutions No. 26 and 29 issued by the Argentine Federation of Professional Councils in Economic Sciences (Federación Argentina de Consejos Profesionales de Ciencias Económicas, FACPCE) which adopt IFRS issued by the IASB, for entities included in the public offering regime under Law No. 17.811 and amendments, either due to their capital stock or negotiable obligations, or because they request authorization to be included in such regime.

These Interim Condensed Financial Statements of Tecpetrol S.A. for the six-month period ended on June 30, 2022 were prepared in accordance with International Accounting Standard (IAS) 34 titled "Interim Financial Reporting" and are presented in thousands of Argentine pesos, unless otherwise stated.

These Interim Condensed Financial Statements were prepared pursuant to the same accounting policies applied in the preparation of the audited Financial Statements at December 31, 2021; therefore, they must be read together.

All information corresponding to the balances at December 31, 2021 and at the six-month period ended on June 30, 2021 is part of these Interim Condensed Financial Statements and is presented for comparative purposes only. If applicable, some figures from the Financial Statements at June 30, 2021 have been reclassified in order to present comparative information in respect of the current period.

# Tecpetrol Sociedad Anónima

## Interim Condensed Financial Statements at June 30, 2022

### Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)

#### 2. Basis for preparation (cont'd)

Pursuant to the IFRS, the preparation of these Interim Condensed Financial Statements requires the management of the Company to make certain estimates that may affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the income and expense figures for the reported periods. Actual profits or losses might differ from these estimates.

##### *Functional and presentation currencies*

Items included in the Interim Condensed Financial Statements are reported in the currency of the primary economic environment in which the entity operates ("functional currency"). The functional currency of the Company is the United States Dollar ("USD"), since this is the currency which best reflects the economic substance of the transactions. Both sales and prices of main drilling costs are negotiated, agreed upon and settled either in USD or considering the exchange rate fluctuation with respect to said currency.

The presentation currency of these Interim Condensed Financial Statements is the Argentine peso ("ARS").

##### *Translation of Interim Condensed Financial Statements*

Interim Condensed Financial Statements prepared using the functional currency of the Company are translated into the presentation currency pursuant to the following:

- (i) assets and liabilities are translated at the closing exchange rate at each reporting date; profits and losses are translated at the average exchange rate of the period.
- (ii) all resulting exchange differences are recognized under *Other comprehensive income* as currency translation differences. When a subsidiary is dissolved or disposed of, accumulated currency translation differences are reported as profits or losses upon sale or disposal.

As from the year ended on December 31, 2021, currency translation differences from reserved earnings and profits or losses for the year are classified as and accumulated directly under *Retained earnings*. For the purposes of standardizing comparative information in the Interim Condensed Statement of Changes in Equity, there has been a reclassification between *Retained earnings* and *Other reserves* of \$1,889,404 and \$616,021 at December 31, 2020 and June 30, 2021, respectively.

#### 3. New accounting standards

##### *(a) New standards, interpretations and amendments to published standards effective as from the current period*

There were no new standards, interpretations and amendments to published standards in force that were relevant to the Company.

##### *(b) New standards, interpretations and amendments to published standards not yet effective and not early adopted*

The Management assessed the importance of other new standards, interpretations and amendments not yet effective and concluded that they were not relevant for the Company.

(1) It corresponds to other activities of the Company not included under the defined operating segments.

(2) It corresponds to expenses not allocated to operating profit (loss) of defined reportable segments.

(3) PPE: Property, plant and equipment.

Depreciation and impairment differences mainly arise from the difference in acquisition costs resulting from the Property, plant and equipment valuation criteria adopted upon transition to IFRS; and from the different criteria of depreciation of seismic exploration, which is depreciated, under Managerial Vision, according to the straight-line method in a four-year period; and, under IFRS, pursuant to the depletion method.

The adjustment of the hydrocarbon inventory valuation is explained because, under managerial vision, the hydrocarbon inventory is valued at its net realizable value; whereas under IFRS, it is valued at cost, using the weighted average cost formula or the net realizable value, whichever is the lowest.

At June 30, 2022, net sales arose mainly from the United States (14.2%), Chile (5.5%), Brazil (4.1%) and Argentina (76.2%), whereas at June 30, 2021, net sales came mainly from The Netherlands (9.5%), the United States (8.9%) and Argentina (81.4%). The designation of net sales is based upon customer location.

**Impairment of long-term assets**

The Company analyses *Property, plant and equipment - Exploration, evaluation and development assets and Right-of-use assets* for impairment periodically or whenever events or changes in the circumstances indicate potential evidence of impairment.

The recoverable value of each CGU (considering a CGU as each area in which Tecpetrol S.A has interest) is estimated as the higher of an asset's fair value less direct costs of disposal and value in use. The value in use is calculated based on the discounted cash flows, applying a discount rate based on the weighted average cost of capital (WACC), which considers the risks of the country where the CGU operates and its specific characteristics.

The determination of the discounted cash flows is based on projections approved by the Management and includes a set of sensitive estimates and assumptions, such as changes in hydrocarbons production levels, sales prices, the evolution of the curve of future hydrocarbon prices, inflation, exchange rates, costs and other cash expenditures, on the basis of the best estimate the Company foresees regarding its operations and available market information.

Cash flow derived from the different CGUs is usually projected for a period that covers the existence of commercially exploitable reserves and is limited to the existence of reserves for the term of the concession or contract.

In the six-month periods ended on June 30, 2022 and June 30, 2021, the Company did not recognize impairment charges in Property, plant and equipment - Exploration, evaluation and development assets.

**21.3 Fair value estimate**

At June 30, 2022 and December 31, 2021, the fair value of all assets and liabilities valued at amortized cost did not significantly differ from their carrying value. Moreover, there were no transfers among fair value hierarchies of financial instruments of Tecpetrol S.A during the six-month period ended on June 30, 2022.

Financial instruments measured at fair value can be classified into any of the following hierarchical levels, depending on how the fair value is estimated:

Level 1 – Based on quoted prices in active markets for identical assets and liabilities. A market is considered active when the quoted prices are available and such prices represent transactions regularly conducted between independent parties.

Level 2 – Based on market inputs (other than quoted market prices included within Level 1) that are observable for assets and liabilities, either directly (e.g., prices) or indirectly (e.g., derived from prices). The fair value of financial instruments that are not traded in an active market is determined by means of standard valuation techniques which maximize the use of observable market inputs.

Level 3 – Based on information not observable in the market (for example, discounted cash flows).

The following table presents the financial instruments measured at fair value by hierarchy level at June 30, 2022 and December 31, 2021:

<b>At June 30, 2022 (Unaudited)</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>

**Interim Condensed Financial Statements at June 30, 2022**

**Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

**23. Borrowings (cont'd)**

By means of Communication "A" 7106 dated September 15, 2020, the BCRA introduced restrictions to access the exchange market. One of such measures applicable to entities with offshore financial debt with a non-related counterparty and with debt securities issued in Argentina and denominated in foreign currency, maturing between October 15, 2020 and March 31, 2021 is the obligation to submit a refinancing plan under certain parameters. Additionally, on February 25, 2021, December 9, 2021, and March 3, 2022, through Communications "A" 7230, "A" 7416 and "A" 7466, the BCRA extended the obligation to submit a refinancing plan for principal amounts maturing from April 1, 2021 to December 31, 2021, from January 1, 2022 to June 30, 2022, and from July 1, 2022 to December 31, 2022, respectively, pursuant to Communication "A" 7106. At June 30, 2022, the Company refinanced its debt with J.P. Morgan Chase Bank, Citibank and others, according to the Communications mentioned above, and must submit a refinancing plan for Class 1 negotiable obligations.

Series	Jun-22	Dec-21	Interest rate	Contract's currency	Amortization of capital	Maturity
Class 1 (i)	60,215,903	49,343,756	4.875%	USD	At maturity	Dec-22
Class 4 (ii)	819,970	672,581	4.00%	USD	At maturity	Feb-23

(i) On December 12, 2017, the Company issued Class 1 Negotiable obligations for a nominal value of USD 500 million, with an issuance price of 100%, which bear interest at a fixed rate of 4.875% and mature on December 12, 2022. Interest is payable semi-annually as from June 12, 2018. Principal will be paid upon maturity; and the Company has the right to redeem the negotiable obligations with no premium, in whole or in part, at any time as from December 12, 2020. Funds obtained from the issuance of such negotiable obligations were used to invest in fixed assets in Fortín de Piedra area in Vaca Muerta formation, located in the province of Neuquén. The Parent Company, Tecpetrol Internacional S.L.U., unconditionally and irrevocably guarantees the negotiable obligations of the Company.

Pursuant to the terms established under BCRA Communication "A" 7466, dated March 3, 2022, the Company must submit a refinancing plan of an average term of two years (minimum) for at least 60% of the principal amount. Such plan must be submitted at least 30 days prior to the maturity date.

At June 30, 2022, and December 31, 2021, the Company purchased Class 1 negotiable obligations at market values for a total of USD 20 million (nominal value).

(ii) On February 9, 2021, the Company issued Class 4 negotiable obligations for a nominal value of USD 6.5 million, paid in cash (in USD) and in kind through the delivery of negotiable obligations Class 2, with an issuance price of 100%, bearing interest at a fixed rate of 4% and maturing on February 9, 2023. Interest is payable quarterly, and principal will be fully paid off upon maturity. Funds obtained from the issuance of such negotiable obligations were used for the partial refinancing of Class 2 negotiable obligations, as stated under Communication "A" 7106 from the BCRA.

#### **Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

##### **31. Contingencies, main investment commitments, guarantees and restrictions on the distribution of profits (cont'd)**

###### (ii) Main investment commitments and guarantees (cont'd)

Under Plan Gas 4, Tecpetrol assumed a total investment commitment of approximately USD 451 million in Neuquina basin: USD 13 million for the first quarter of 2021 and about USD 29.2 million for the remaining quarters starting on the second quarter of 2021. Such investments will be made during 2021-2024 and include maintaining drilling equipment in operation (an average of 0.85 per quarter). At June 30, 2022, Tecpetrol had already made investments for USD 528.12 million. Moreover, Tecpetrol committed to an injection of up to 14.9 million m<sup>3</sup>/d until 2024, and regarding hiring local, regional and national workforce, the Company made a commitment to proportionally increase the number of Argentinian workers, goods and services under the committed investment plans until 2024. At the date of issuance of these Interim Condensed Financial Statements, Tecpetrol honored all commitments. Also, in relation to the agreements entered into with the distribution service licensees, CAMMESA and IEASA, for the supply of natural gas under the abovementioned Plan, regular clauses for the delivery or payment of up to 10.64 million m<sup>3</sup>/d until December 2024 were included, considering increases of 4.5 million m<sup>3</sup>/d from May to September of each year.

###### (iii) Restrictions on the distribution of profits

In accordance with Companies Law No. 19.550 (hereinafter referred to as "LGS"), the Company's by-laws and General Resolution No. 622/13 issued by the CNV, 5% of the net profits for the year must be allocated to a legal reserve until such reserve equals 20% of the adjusted capital.

CNV General Resolution No. 609/12 sets forth that the difference between the initial balance of retained earnings disclosed in the financial statements of the first year-end under IFRS implementation and the final balance of retained earnings at the end of the last fiscal year under the previous accounting standards then in force shall be allocated to a Special Reserve. Such reserve shall not be used for distribution (whether in cash or in kind) among shareholders or owners of the entity and shall only be used for capitalization purposes or to compensate potential negative balances under *Retained earnings*. On April 26, 2018, the Shareholders at an Annual General Meeting approved the setting up of this reserve and the restrictions upon its use.

The Company's capital does not include preferred stocks. Tecpetrol S.A. is not subject to any other restriction on the distribution of profits other than the ones mentioned in the paragraph above.

#### **Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

##### **32. Program of Incentives to Investments in Natural Gas Production Developments from Unconventional Reservoirs**

On March 2, 2017, the Mining and Energy Ministry issued Resolution MINEM 46E/2017, whereby it creates a Program of Incentives to Investments in Natural Gas Production Developments from Unconventional Reservoirs located in Neuquina basin (hereinafter referred to as the “Program”).

For the purposes of participating in the Program and pursuant to all principles, objectives and guidelines established, Resolution MINEM No. 46-E/2017 set forth certain requirements, including, but not limited to, the presentation of an investment plan approved by the authorities of the province implementing the Program, initial production, an estimated production volume under the concession included during the term of the Program, a projection of the prices Tecpetrol S.A. will charge for natural gas from said exploitation concession, and a presentation of a measurement scheme for the production from said exploitation concession.

Subsequently, by means of Resolution MINEM No. 419-E/2017 dated November 1, 2017, some amendments were introduced to the Program aiming at: (i) including projects that already were in a development phase, but which required, in order to increase production, investments comparable to those made in projects in the early stages of their development phase, and (ii) avoiding market cost distortions arising from the assessment of the compensation based upon sales prices of each beneficiary company. In this respect, it was defined that the determination of the effective price assessment will be based on average prices in the market.

Finally, Resolution MINEM No. 447-E/2017 extended the Program created under Resolution MINEM No. 46-E/2017 in order to include the production of natural gas from unconventional reservoirs located in Austral basin.

For unconventional exploitation concessions whose adherence to the Program has been approved (“Included Concession”), the Program provided for the payment, by the State, over the whole natural gas production from such concession (“Included Production”), of an amount which equals the difference between the value of Included Production of natural gas from unconventional reservoirs (“Minimum Price”), which is of USD 7.5 per million BTU for 2018, USD 7 per million BTU for 2019, USD 6.5 per million BTU for 2020 and USD 6 per million BTU for 2021, and the average price (“Effective Price”) according to Resolution MINEM No. 419-E/2017 dated November 1, 2017”). To this effect, and pursuant to the Program, member companies must report: (i) the total volume of natural gas from unconventional reservoirs and (ii) the prices of all sales of natural gas.

Within this compensation scheme, the Program provided for the possibility of member companies to choose a scheme of provisional monthly payments (“Provisional Payments”) consisting of 85% (eighty-five percent) of the compensation to be received for the monthly Included Production, over the basis of production estimates submitted by the company for said month. These payments will be subsequently adjusted (“Payment Adjustments”) considering final delivered volumes, certificates issued by independent auditors and definitive prices reported to the authority of implementation. The Company adopted the above-mentioned Provisional Payments scheme.

#### **Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

##### **32. Program of Incentives to Investments in Natural Gas Production Developments from Unconventional Reservoirs (cont'd)**

Moreover, member Companies must report to the former Office of Hydrocarbon Resources any circumstance that substantially modifies projected values or any other submitted information affecting the payments.

After fulfilling all related requirements and obtaining approval of the investment plan by the Ministry of Energy, Public Services and Natural Resources of the province of Neuquén by means of Resolution No. 240/17; on August 23, 2017, the Company requested to participate in the Program to obtain an exploitation concession over Fortín de Piedra area.

Adherence of Tecpetrol S.A. to the Program, as beneficiary of the unconventional exploitation concession over Fortín de Piedra area, was approved by the then Secretary of Exploration and Production in charge of the Office of Hydrocarbon Resources through Resolution No. 2017-271-APN-SECRH#MEM dated November 3, 2017.

In relation to the production from January to July 2018 (all seven months included), the authority implementing the Program timely settled and paid to Tecpetrol S.A. the resulting compensations for the total of the production from the unconventional exploitation concession over Fortín de Piedra area.

Nevertheless, the Office of the Secretary of Energy settled Provisional Payment for August 2018 and subsequent months as from such date but introduced a change of criteria regarding the assessment of the compensations provided for in Resolution MINEM 46-E/2017. Said modification consisted in restricting the amount to be paid to the production projections submitted by the Company upon request of adherence to the Program. Such criterion has been retrospectively applied; thus, affecting the compensations already settled corresponding to April-July 2018. This change of criteria has a negative impact upon cash flows; therefore, the Company periodically reassesses the conditions under the Development Plan of Fortín de Piedra area for the purposes of readjusting cash flows to a new scenario and improving financial indicators.

The Company filed appeals against the resolutions issued by the Office of the Secretary of Energy settling Provisional Payments from Aug-18 to Dec-20 inclusive and Payment Adjustments from Apr-18 to Dec-20 inclusive, since the Company considers that the change of criteria adopted flagrantly violates Section 17 of the National Constitution by affecting acquired rights of the Company previously acknowledged by the Government.

In such appeals, the Company claimed, among other things, that the contested issues were contrary to the terms of the promotion regime created under Resolution MINEM 46-E/2017 and the Company's acquired rights protected by said regime after adherence. Moreover, it was explained that the terms of the Program should be understood in the sense of avoiding any kind of restriction to the production of natural gas which is the subject matter of the compensations. Besides, the change of criteria implemented by the Government constitutes a unilateral and arbitrary modification of the legal framework under consideration and violates not only previous commitments assumed by the authority of implementation, but also acts carried out by such government. Additionally, concern was expressed about several aspects of the resolutions issued by the Office of the Secretary of Energy, including, cause, subject matter, purpose, misuse of power, and irregularities in the procedures, among others. The Company reserved its right to claim interest and damages derived from the above-mentioned contended administrative acts.

### **Notes to Interim Condensed Financial Statements at June 30, 2022 (cont'd)**

#### **32. Program of Incentives to Investments in Natural Gas Production Developments from Unconventional Reservoirs (cont'd)**

In April 2019, the Ministry of Finance denied the appeals filed by the Company against the resolutions issued by the Office of the Secretary of Energy by means of which Provisional Payments for August, September and October 2018 were determined.

In May 2019, the Company filed a complaint against the State in order to obtain the nullity of the resolutions issued by the Office of the Secretary of Energy and confirmatory resolutions issued by the Ministry of Finance, which settled Provisional Payments for August, September and October 2018, according to the above-mentioned criterion. Apart from the request for nullity, the complaint also included a request for the collection of \$2,553.3 million (plus interest) and a request for an injunction ordering the Office of the Secretary of Energy to settle all Provisional Payments and Payment Adjustments pursuant to the criterion laid down by the Company for the remaining term of the Program. Besides, direct and indirect shareholders of Tecpetrol S.A. may file claims before international courts.

Within the framework of the Public Bidding – Promotion Plan for Argentine Natural Gas Production / 2020-2024 Supply and Demand Scheme, established by means of Executive Decree No. 892/2020 and the Bidding Terms And Conditions of the Public Bidding – Promotion Plan For Argentine Natural Gas Production / 2020-2024 Supply And Demand Scheme under Resolution No. 317/2020 issued by the Office of the Secretary of Energy (Plan Gas 4), subject to the term and validity of Plan Gas 4 and in relation to the volumes of production therein committed and delivered, Tecpetrol accepted that payments under the Program related to the volumes of natural gas delivered in accordance with Plan Gas 4 as from the first delivery, that is, January 1, 2021, will be limited to the production projection of natural gas estimated upon request of adherence of Fortín de Piedra Project to the Program. Therefore, the Company waived its right to demand payments for natural gas volumes under the Program as from January 1, 2021, exceeding the figures projected for the above-mentioned production.

In compliance with applicable accounting standards, the Company included those compensations that are highly likely to be paid by the government according to the assessment criterion used for the last payments. This represented a lower income for a total amount of \$29,915 million accumulated during the term of the Program.

### **Introduction**

We have reviewed the accompanying interim condensed financial statements of Tecpetrol Sociedad Anónima (hereinafter, "the Company"), which comprise the interim condensed statement of financial position at June 30, 2022, the interim condensed income statement and the interim condensed statement of comprehensive income for the three-month and six-month periods ended June 30, 2022, the interim condensed statement of changes in equity and the interim condensed cash flow statement for the six-month period then ended, and selected explanatory notes.

The balances and other information corresponding to the year 2021 and to its intermediate periods are an integral part of the financial statements mentioned above and, therefore, they must be considered in connection with these financial statements.

### **Board's responsibility**

The Board of Directors of the Company is responsible for the preparation and presentation of the financial statements in accordance with International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE, for its Spanish acronym) as professional accounting standards and incorporated by the Argentine Securities Commission (CNV, for its Spanish acronym) to its regulations, as approved by the International Accounting Standards Board (IASB) and, therefore, is responsible for the preparation and presentation of the interim condensed financial statements mentioned in the first paragraph in accordance with International Accounting Standard 34 "Interim Financial Reporting" (IAS 34).

### **Scope of our review**

Our review was limited to the application of the procedures established by International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as review standard in Argentina by Technical Resolution No. 33 of the FACPCE as it was approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries to the Company's personnel responsible for preparing the information included in the interim condensed financial statements and applying analytical and other review procedures. The scope of this review is substantially less than an audit conducted in accordance with International Standards on Auditing. Consequently, a review does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the financial position, comprehensive income and cash flows of the Company.

### **Conclusion**

Based on our review, nothing has come to our attention that caused us to believe that the interim condensed financial statements mentioned in the first paragraph of this report are not prepared, in all material respects, in accordance with International Accounting Standard 34.
